

**WORLDNET**  
LOGISTICS

“Our primary focus  
in all that we do  
is absolute client  
satisfaction”

# COMPANYPROFILE

**WorldNet Logistics** provides a comprehensive international freight forwarding, express and logistics service that incorporates the demands of all your supply chain requirements. As an independent logistics service provider, we actively track and harness the latest technology to bring tailor-made integrated solutions specific to your individual needs whilst offering the benefits of a multinational company.

In addition to WorldNet Logistics owned representations globally, we are part of an extensive international network which comprises of more than 500 offices with over 30 000 logistics experts. Our vast network of highly qualified and experienced individuals ensures prompt and efficient global logistics services enabling you to focus on your core competencies, whilst WorldNet Logistics takes care of the rest.

“ As an independent logistics service provider, we actively track and harness the newest technology to bring tailor-made integrated solutions specific to your individual needs. ”

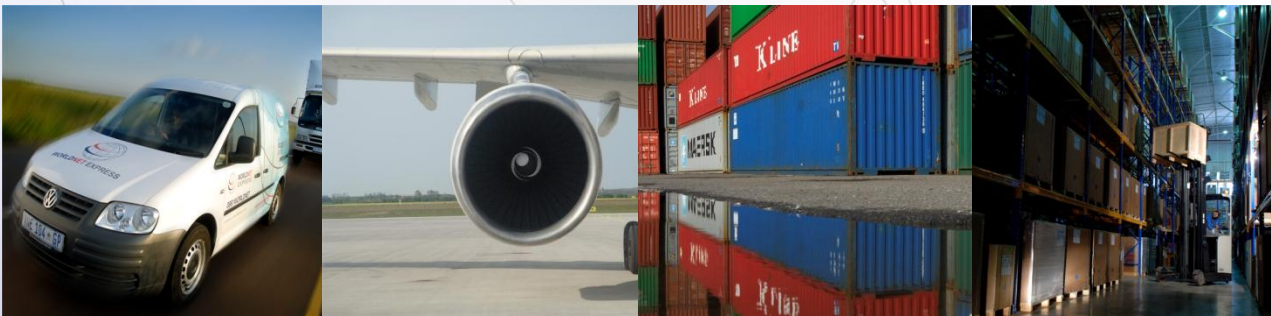

WorldNet Logistics continues to expand and strengthen its operational networks and is committed to providing seamless and complete supply chain logistics solutions. We manage end-to-end contract logistics, facilitating all international freight forwarding, customs clearing, warehousing and distribution services. Our premises are secured with state-of-the-art technology and are located throughout Africa, Europe and the Asia Pacific.

Our warehousing facilities (Bond Store, Security Vault and Free Store) can be customised to individual requirements. We have the latest dock levellers facilitating unpacking and packing of containers, as well as a tough and modifiable racking structure. WorldNet Logistics also offers duty-free and bonded warehouse facilities that include high security controlled areas. We uphold strict security with a rigorous alarm and CCTV system as well as patrolling armed guards.

## Airfreight Forwarding

WorldNet Logistics provides customised airfreight forwarding solutions on a global scale, in agreement with International Air Transport Association (IATA) standards. Our Part 108 accreditation, coupled with our worldwide partnerships with all major reputable airlines, enhances our ability to constantly exceed our customers' expectations. Our highly skilled, service-driven airfreight import and export personnel will monitor your consignment throughout the transport chain, from collection and processing through customs, to final delivery.

As airfreight is the most costly of transportation, our teams are committed to ensuring that your cargo is transported on the most secure and efficient route whilst still remaining cost-effective and affordable.

## Ocean Freight Forwarding

Information moves cargo and attention to detail is paramount. Our teams are dedicated to this approach which ensures professional handling of your Full Container Loads, Less than Container Loads, and break-bulk shipments. Our international network of offices, backed by strong ties with key shipping lines, means we can accommodate ocean freight shipments to and from almost anywhere in the world. We will work with you to develop a tailor-made solution to match your business requirements and provide you with regular, personalised client status reports every step of the way.

## Air Charter Services

WorldNet Logistics offers cost effective, reliable, punctual and discreet air charter services. This service is supplementary to WorldNet Logistics' scheduled airfreight forwarding services and covers the requirements of dedicated flight operations. This service is ideal for government departments, charity and relief organisations, the oil and automotive industry, as well as any other company in need of urgent and dedicated air charter services.

Moving cargo around the world is becoming an increasingly complex affair, which is where our experience provides indispensable value to our customers. Our team works closely with you on every detail of your charter flight.

## Customs Clearing

WorldNet Logistics personnel have many valuable years of experience in the freight industry and are thus able to offer a professionally personalised service to all of our clients on customs clearance and delivery of their cargo.

All of our declarations are quality controlled by our tariff team prior to submission. We provide our clients with regular status reports via our website, or via email, depending on your specific requirements. The reports keep track of your shipments throughout the forwarding and clearing process from the time of placement of the order through to final delivery of the consignment.

Our clearing departments can also provide customs tariff consultancy, assistance with the application of government permits, applications for tariff determinations and applying for customs refunds.

## Warehousing

Warehousing and logistics needs are erratic. WorldNet Logistics provides a broad range of warehousing and related services and can structure a solution to your company's individual specifications. Our state-of-the-art warehousing facilities include bonded warehousing, security vault storage, bar-coding, picking and packing facilities, crating and many other tailor-made services to meet your business demands. We offer 24-hour, high-tech video surveillance and a strictly secure facility for careful handling of cargo. We do regular stock-takes to ensure cargo in our warehouse is in order and keep you up to speed with our client status reports.

Our packing facility allows for packing of airfreight and ocean freight cargo containers or platforms. For international cargo, WorldNet Logistics does packing under customs supervision. Our logistics side of the warehouse provides door-to-door delivery, same day deliveries and local distribution. The fleet of vehicles are equipped with roller beds and tail lifts that ease the delivery and handling of large volumes of cargo.

WorldNet Logistics warehousing adheres to fire protection standards. Our warehouse is racked up to seven levels and is monitored 24/7 by a rigorous alarm and CCTV system as well as patrolling armed guards.

## Information Management

The availability of information is essential for all business transactions. We manage workflow throughout our internal and external processes. All internal processes are ISO9001:2000 accredited and can be traced via our tailor-made client reports. In addition, WorldNet Logistics has invested in one of the world's leading modular enterprise systems – *ediCargowise* – a state-of-the-art logistics software solution designed specifically for freight forwarders.

The system is customisable and able to integrate with any ERP system enabling us to reinvent your supply chain and giving you the best possible service, including:

- 24-hour online access to all shipping information, status reports and documents
- Automated communication and document exchange by email, individually designed to your requirements
- Tracking and management of your stock, inventory levels and orders in our warehouses online
- The exchange of supply chain information in any file format requested
- Full integration into your ERP-system to increase automation and reduce administration costs on both ends

“ A one-stop solution in Logistics, Express and Supply Chain Management. ”

## Risk Management

The global trend of outsourced manufacturing operations has resulted in an increase in the transport of high value commodities, with corresponding increases in financial implications. Consequently, WorldNet Logistics continuously strives to minimise risk along the logistics supply chain by increasing information availability and security on all its premises through dedicated Risk Management.

## Express

WorldNet Express, a division of WorldNet Logistics, is a one-stop-shop solution in Logistics, Express and Supply Chain Management, offering fast and reliable door-to-door transportation of goods, information and payments through its global network. The express service offering, comprises of domestic and international services that are flexible and customisable to meet specific business or private needs.

We understand that your needs may be driven by those of your client's and that timelines and demands are likely to vary from project to project. With an assortment of options that can be tailored to your convenience, WorldNet Express guarantees you a trusted and cost effective courier service.

Whether you require straight-forward express services, security services for precious cargo or even need to transport dangerous goods, we can easily accommodate you. WorldNet Express will deliver what you need, where you need it, when you need it to get there quickly and safely.

Our comprehensive range of Domestic Services include:

- Same Day Express
- Overnight Express
- Next Day Express
- Budget Service
- City Express
- Regional Express
- Sunrise Express
- Weekend / Public holiday service
- After Hours Collection and / or Delivery
- Township and Retail Service

In addition to our domestic services, WorldNet Express also provides reliable, International and Value Added Services, such as:

- Worldwide Document and Parcel Express
- Dedicated vehicles
- Full truck loads
- Armed vehicles and armed guards
- Exhibitions and Special Handling
- Dangerous goods transportation
- Daily collection arrangements

At WorldNet Express, we believe that having the right networks and information in place is critical to the safe and efficient movement of cargo.

That is why we pride ourselves in the management of the Express Courier Channel – from tracking all internal and external processes to offering state-of-the-art security systems and tracking devices, which will minimize risk along the way and ensure that the movement of products are tracked and monitored at all times.
